

Part of practice range

GOLF COURSE

Despite the dual carriageway, which runs in front of the Club connecting Nairobi to Naivasha, the golf course does not experience much noise or pollution in the serene and quiet surroundings with lots of fresh air.

The golf course is indeed blessed with its serene location and sits very near the Rift Valley at an altitude of 6,600 feet. The course has computerized fairway irrigation system which together with the good amounts of rain fall that the location receives makes the entire course ever-green.

The Kikuyu grass, which makes up the fairways thrives in these conditions and keeps the Course lush and verdant year round

Flowering trees and bushes dot the fairways and surround the tees and greens making it a very picturesque course.

It is one course, which will test your golf skills along with your physical condition with some of its hills and valleys. The entire course is maintained at a high level resulting in excellent greens and fairways.

The beautiful 18th hole, which sits in front of the clubhouse, gives the players an idea of what is in store for them.
